PROFESSIONAL SUMMARY

Senior Frontend & Full-Stack Developer with 5+ years building production SaaS, EdTech and Web3 applications, including a SaaS platform with 25,000+ active accounts. Core stack: React.js, Next.js, TypeScript, Node.js, PostgreSQL / Prisma ORM and MongoDB. I focus on reusable component architecture, efficient data fetching with RTK Query, and fast, SEO-friendly Next.js applications, owning features end-to-end from database schema to deployed UI.

PROFESSIONAL EXPERIENCE

ArhamSoft IT Solutions (Pvt.) Ltd.

Aug 2021 – Present | Lahore, Pakistan

Full Stack Developer — Jan 2026 – Present

- Deliver features end-to-end: PostgreSQL schemas with Prisma ORM, Node.js/Express REST APIs and the React/Next.js UI.
- Implement authentication and role-based authorization at API and UI level, so each role only sees and edits permitted data.
- Standardised data fetching on RTK Query with tag-based cache invalidation, so mutations refresh only the affected data.
- Integrate payment gateways, auth providers and cloud APIs, handling failure cases so payment and sign-in flows stay reliable.

Senior Frontend Developer — Aug 2021 – Dec 2025

- Built SaaS, EdTech and Web3 frontends (AssetsRack, Fobell, MetaMutoDAO) in React.js, Next.js and TypeScript.
- Designed reusable, typed components (data tables, forms, modals, filters) that replaced duplicated per-module UI.
- Chose Next.js SSR / static generation for public, content-heavy pages to improve load speed and SEO.
- Centralised state and API calls in Redux Toolkit / RTK Query, replacing ad-hoc fetch logic and cutting duplicate network requests.
- Turned Figma / Adobe XD designs into pixel-perfect, responsive UIs; took part in sprint planning and code reviews.

SELECTED PROJECTS

AssetsRack — Asset Management SaaS | Frontend Developer
SaaS with 25,000+ active accounts for managing assets, users, reservations and reports. **I built** the dashboard modules, the shared component library and the RTK Query data layer, and wired up NextAuth.js authentication. [Next.js, TypeScript, Redux Toolkit, RTK Query, NextAuth.js, Tailwind CSS, MongoDB]

Fobell — AI-Powered Exam Preparation Platform | Full-Stack Developer
Verified teachers, resources, worksheets and live classes for IGCSE, A Level and local-board students. **I built** the student-facing Next.js app (teacher discovery, resource library, live classes), designed the Node.js APIs and MongoDB schemas, and integrated the AI study features. [Next.js, TypeScript, Tailwind CSS, Node.js, MongoDB, AI Integration]

MetaMutoDAO — Decentralized DAO Platform | Frontend Developer
Community governance, voting and crowdfunding. **I built** the proposal, voting and crowdfunding UI and integrated wallet connection and on-chain transactions with Web3.js. [React.js, Redux Toolkit, Web3.js, Node.js, Express.js, MongoDB]

ESIM Management System — Travel / Telecom Platform | Frontend Developer
Platform for selling and operating eSIMs. **I built** the product, order and user-management screens and the RTK Query data layer. [React.js, Redux Toolkit, RTK Query, Tailwind CSS, REST API]

Cloudarithm — Software Development Agency Website | Full-Stack Developer
Agency website. **I built** it with reusable, data-driven section components and lead-capture forms on Next.js API routes. [Next.js, TypeScript, Next.js API Routes, Tailwind CSS]

More projects (OzMovies, FLO.ink, Marilyn Center, RESolution) with details at taimoor-shahid.vercel.app

TECHNICAL SKILLS

Core: React.js, Next.js, TypeScript, JavaScript (ES6+), Node.js, Express.js, PostgreSQL, Prisma ORM, MongoDB, Redux Toolkit, RTK Query, Tailwind CSS
Also experienced with: HTML5, CSS3 / Sass, Bootstrap, Vue.js, Angular.js, React Native, jQuery, GSAP, Web3.js, Context API
CMS & No-Code: WordPress, Shopify, Webflow, Bubble.io
Tools & Practices: Git, GitHub, Postman, Vercel, Agile/Scrum, REST API design, SEO, accessibility, performance optimisation

EDUCATION & LANGUAGES

Bachelor of Computer Science (BCS) — NCBA&E (National College of Business Administration & Economics) 2011 – 2016
Intermediate in Computer Science (ICS) — Punjab College of Information Technology 2008 – 2010
Languages: English, Urdu
