SUMMARY

- Full Stack Developer with **5+ years** of experience in designing, developing, and maintaining scalable web applications.
- Proficient in **React.js, Next.js, TypeScript, JavaScript, Node.js, Express.js, PostgreSQL, and Prisma ORM**.
- Experienced in building responsive, high-performance user interfaces using **Tailwind CSS** and **Bootstrap**.
- Skilled in developing and integrating **RESTful APIs**, database-driven applications, and full-stack solutions.
- Strong expertise in **Redux Toolkit, RTK Query**, and modern state management techniques.
- Experienced with CMS and no-code platforms including **WordPress, Shopify, Webflow, and Bubble.io**.
- Proficient in version control using **Git** and **GitHub**, with experience working in Agile development environments.
- Passionate about writing clean, maintainable code and delivering scalable, user-focused software solutions.

PROFESSIONAL EXPERIENCE

ArhamSoft (Pvt.) Ltd., Lahore, Full Stack Developer

01/2021 – Present | Lahore, Pakistan

- Design and develop scalable full-stack web applications using **React.js, Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma ORM**.
- Develop secure and optimized REST APIs for seamless communication between frontend and backend systems.
- Build database-driven applications with efficient schema design, authentication, authorization, and data management.
- Collaborate with UI/UX designers, QA engineers, and backend teams to deliver high-quality software solutions.
- Implement Redux Toolkit and RTK Query for efficient application state management, caching, and API integration.
- Optimize application performance, scalability, and maintainability by following modern software engineering practices.
- Participate in architectural discussions and contribute to technical decisions for enterprise-level applications.
- Integrate third-party services, payment gateways, authentication systems, and cloud-based APIs.
- Maintain production applications, resolve bugs, and continuously improve system performance and user experience.

Arhamsoft IT Solutions (pvt) Ltd, Senior Frontend Developer

08/2021 – 12/2025 | Lahore, Pakistan

- Developed responsive, high-performance web applications using **React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, and Bootstrap**.
- Built reusable UI components and scalable frontend architectures for enterprise-level applications.
- Collaborated closely with backend developers to integrate REST APIs and deliver seamless user experiences.

- Implemented CRUD operations, authentication flows, and centralized state management using **Redux Toolkit** and **RTK Query**.
- Optimized website performance, accessibility, SEO, and cross-browser compatibility.
- Delivered pixel-perfect implementations from Figma and Adobe XD designs while maintaining responsive layouts across desktop, tablet, and mobile devices.
- Worked within Agile development teams, participating in sprint planning, code reviews, and continuous integration workflows.
- Received recognition for exceptional teamwork, technical excellence, and dedication to successful project delivery.

PROJECTS

Assets Rack, *Technologies: React.js, Next.js, Redux Toolkit, Tailwind CSS, REST APIs*

- Developed responsive frontend modules for a large-scale web application.
- Built reusable React components to improve development efficiency and maintainability.
- Integrated REST APIs and optimized data flow using Redux Toolkit.
- Improved application performance and user experience through code optimization and modern frontend practices.

BiiView, *Technologies: React.js, JavaScript, Bootstrap, Redux Toolkit*

- Designed and developed responsive user interfaces with a focus on usability and performance.
- Implemented dynamic features and optimized frontend architecture.
- Collaborated closely with backend teams to integrate APIs and business logic.
- Improved responsiveness across desktop, tablet, and mobile devices.

MetaMuto, *Technologies: React.js, Next.js, TypeScript, Redux Toolkit*

- Developed scalable frontend architecture for enterprise applications.
- Built reusable components and integrated backend APIs.
- Optimized application performance and enhanced user interaction.
- Delivered high-quality features following modern software engineering standards.

SKILLS

Frontend Technologies (React.js • Next.js • TypeScript • JavaScript (ES6+) • HTML5 • CSS3 • Tailwind CSS • Bootstrap • GSAP Animations • jQuery) | **Backend Technologies** (Node.js • Express.js • REST APIs) | **Databases & ORM** (PostgreSQL • Prisma ORM • MongoDB) | **State Management** (Redux Toolkit • RTK Query) | **CMS Platforms** (WordPress • Shopify • Webflow • Bubble.io [↗](#)) | **Version Control & Development Tools** (Git • GitHub • VS Code • Postman • npm • Vercel)

EDUCATION

National College of Business Administration & Economics (NCBA&E) 2011 – 2016 | Lahore, Pakistan
Bachelor of Computer Science (BCS)

Acquired a robust foundation in computer science fundamentals, including data structures, algorithms, and software engineering.

- Enhanced problem-solving abilities through practical programming projects, directly addressing real-world challenges.
- Developed expertise in computer architecture, operating systems, and database management, forming a comprehensive base for software development.
- Equipped with a strong skill set for software application building, underpinned by

theoretical knowledge and practical application.

Punjab College of Information Technology

2008 – 2010 | Lahore, Pakistan

Intermediate in Computer Science (ICS)

Deepened knowledge in computer science, setting the foundation for further education and career development.

- Achieved proficiency in programming languages, including C, C++, and Java, enhancing problem-solving capabilities.
- Studied key concepts in mathematics and physics, essential for developing computational thinking skills.
- Cultivated an analytical mindset and meticulous attention to detail through practical projects and coursework, essential for success in technology fields.

STRENGTHS

Professional Strengths — Full Stack Web Application Development • Enterprise Software Development • Frontend Architecture & Performance Optimization • REST API Design & Integration • Database Design & Management • Responsive & Mobile-First Development • Team Collaboration & Agile Methodologies • Problem Solving & Analytical Thinking • Clean, Maintainable, and Scalable Code • Continuous Learning and Adaptability | **Development Practices** — Responsive Web Design • API Integration • Performance Optimization • Cross-Browser Compatibility • Component-Based Architecture • Agile/Scrum • Software Debugging • Clean Code Principles
